

AML's manufacturing plant proudly stands as India's largest lifesaving production facility

Dr. Vinod Kohli
Founder & Chairman
Allied Medical Limited

In the dynamic landscape of the healthcare industry, Allied Medical Limited (AML) emerges as a beacon of excellence, driven by a steadfast commitment to quality, innovation, and service. At the heart of AML's success story lies its state-of-the-art manufacturing facility, meticulously designed, and strategically located for optimal efficiency and connectivity to major industrial hubs like Delhi NCR. Spanning an impressive **200,000 square feet**, this facility stands as a testament to AML's dedication to advancing healthcare infrastructure in India.

AML's manufacturing plant is not just a facility; it is a symbol of scale and dedication to saving lives. **As India's largest lifesaving production facility**, it operates under strict adherence to industrial regulations, manned by a team of proficient professionals and skilled labourers.

Every aspect of the plant is seamlessly integrated with technology and stringent quality control measures to ensure the production of superior medical devices.

Specializing in life-saving medical equipment, AML operates within a culture of relentless pursuit of excellence. Endorsed by the Ministry of Science & Technology, Government of India, AML is driven by the noble cause of 'service to mankind'. Rigorous quality control measures are embedded into the core of operations, ensuring that only the highest standards are maintained throughout the manufacturing process. A dedicated team of experts meticulously inspects each stage, guaranteeing the delivery of top-notch products to the market.

Moreover, AML takes pride in its approval under the PLI government scheme, reflecting its dedication to innovation and national progress.

Our specialization lies in the manufacturing and distribution of critical medical equipment, including Anaesthesia machines, ventilators, patient monitors, infusion pumps, defibrillators, and emergency medical devices. AML's comprehensive range of medical devices caters to diverse healthcare needs, reaffirming its commitment to providing essential tools for patient care. As India's growth story unfolds, AML stands proud to contribute to this journey through its indigenous product portfolio. Empowered by technological advancements, AML remains committed to building a prosperous world for all, where quality healthcare is accessible to everyone, everywhere.

With ISO 9001 and ISO 13485 accreditations for over two decades, along with European CE certification, AML's products adhere to global standards of quality and safety. Additionally, AML is a registered

member of esteemed industry associations like **AiMED, FICCI, FIEO, CII & Assocham**, further solidifying its position as a trusted leader in the healthcare sector.

The cornerstone of AML's success lies in its Research and Development (R&D) division, driving innovation and industry positioning in the global market. With research laboratories in the London (United Kingdom), Rajasthan, and Haryana (India). We continuously explore breakthrough solutions to enhance patient treatment and caregiver efficiency. AML's commitment to innovation is not just a strategic imperative; it is a reflection of its ethos of service and advancement in healthcare.

In the realm of AML, where regulations, technologies, and methodologies constantly evolve, staying ahead of the curve is paramount. Our various departments are not merely reactive; they are proactive in seeking out the latest advancements and research globally. From compliance to technology, we ensure that every aspect of our operations is continuously updated and upgraded.

In addition to pioneering innovation, AML places immense value on customer relations, fostering enduring partnerships through exemplary after-sales service. These partnerships have been instrumental in keeping a wide

customer base around the world. Allied Medical Limited not only has a pan-India presence but also has a global network of trained manpower, AML ensures prompt and diligent support to its customers worldwide, cementing its reputation as a trusted partner in healthcare delivery.

In conclusion, Allied Medical Limited exemplifies the convergence of excellence, innovation, and service in the healthcare industry. With a legacy built on integrity, quality, and dedication, AML continues to chart new frontiers in advancing healthcare infrastructure and improving patient outcomes, both in India and beyond.

“AML's manufacturing plant is not just a facility; it is a symbol of scale and dedication to saving lives. As India's largest lifesaving production facility, it operates under strict adherence to industrial regulations, manned by a team of proficient professionals and skilled labourers”
